SECTORAL SEMINAR ON OPPORTUNITIES IN ROADS & HIGHWAYS

DATE: 17th February, Wednesday

TIME: 10:00 to 13:00 hrs

THEMES:

A. PANEL DISCUSSION ON - CONTRACT MANAGEMENT & CONSTRUCTION

Session aims to create an enabling framework to revive PPP in the sector and discuss the changes made in the existing policies and introduction of new ones. The focus now needs to be on inter-ministerial and Centre-state coordination to implement the slated initiatives.

- New initiatives in project preparation and procurement
 - The Government has brought in a significant change in project preparation and procurement with the decision not to award projects till all major pre-construction approvals are in-place.
- Introduction of new financing models
 - The Government has introduced new financing Models i.e. Hybrid Annuity Model, Toll-Operate-Transfer (TOT) model wherein the construction & financial risk rests with the Government
- Revamped model of "Dispute Resolution Board"
 - The Government is set to in a revamped model of "Dispute Resolution Board" on the lines of NGT, Delhi which would be set up by an Act of Parliament for effective and expeditious disposal of cases.
- Concluding Remarks

B. PANEL DISCUSSION ON - INNOVATIVE MATERIALS AND TECHNOLOGIES FOR ROADS & HIGHWAYS SECTOR

The session aims to discuss the latest technology, innovation and new practices in the sector focusing on economic viability and reduction of costs.

- Government is working with ISRO to develop lithium-ion battery for use in vehicles which will also contribute to the 'Make in India' vision.
- In order to improve road construction quality and enhancing energy security, a lot of innovative initiatives like use of waste material for road construction, preparing precast designs, use of green fuels et al are being implemented.
- Launch of Green Highways policy 2015 in which, one per cent of the cost of highway development projects will have to be set aside for planting trees, covering both existing sections and new routes that would be added to the network.
